ABOUT ME

a Front-end/full-stack JavaScript developer with approximately 3 years of experience. My expertise extends to popular frameworks like Vue and React, enabling me to build dynamic and responsive web applications. Additionally, I have a solid understanding of server-side technologies like Node.js, Express, and NestJS, along with databases such as MongoDB, allowing me to develop end-to-end solutions that emphasize performance and scalability.

Collaborating effectively with cross-functional teams is a strength I cherish, creating a positive and innovative environment. Writing clean and maintainable code is a priority for me, ensuring projects are delivered on time and exceed expectations. My passion for technology and a drive to stay up-to-date with the latest trends push me to create intuitive and impactful applications. I'm excited to contribute my skills to dynamic projects and create exceptional web experiences together.

EXPERIENCES

PT Jumpa Daring Indonesia
Full Stack Developer   (March 2021 - Present)

- Developed a custom client dashboard for an enterprise application, providing a tailored and efficient user interface for enhanced client experience.
- Demonstrated strong problem-solving skills by effectively debugging an existing website application, resolving issues promptly, and ensuring client satisfaction.
- Successfully designed and implemented a new mobile website application to optimize performance and responsiveness, resulting in improved user engagement.
- Contributed to the growth and functionality of the application by creating a new API to support additional features, expanding its capabilities and usability.

PT Global Dinamika Internusa
Front End Developer   (October 2020 - February 2021)

- Spearheaded the development of new and innovative features for the admin dashboard panel, enhancing its functionality and usability.
- Demonstrated expertise in UI/UX design, crafting visually appealing and user-friendly interfaces for mobile applications and product banners, resulting in an enhanced user experience.
- Leveraged Vue.js and Framework7 to contribute to the development of a new version of the cross-platform mobile application, improving its performance and responsiveness.
- Proficiently communicated with databases using Parse Platform SDK, ensuring seamless data retrieval and management for various applications.
- Contributed to the success of projects through effective teamwork, collaboration, and a proactive approach to problem-solving.

PT GITS Indonesia
Front End Developer   (June 2020 - August 2020)

- Contributed to the creation of enterprise-level CMS applications.
- Proficiently implemented new designs into web applications using Vue.js, enhancing user interfaces and user experiences.

- Collaborated closely with a team of experienced developers, refining teamwork skills and communication abilities.
- Gained valuable insights and best practices from senior developers, further enhancing technical expertise.
- Demonstrated adaptability and dedication in achieving successful project outcomes through effective collaboration and problem-solving.
